

# João Pedro Diesel

Full Stack Web Developer

## About Me

In the early stage of my career, I'm a full stack web developer with expertise in front-end development, and I can also get involved in projects that require the creation of a database and front-end integration. I intend to carry out challenging and innovative projects in a company that values me as a professional.

## Skills

- Experience in front-end development using Javascript, React, Vue.js, HTML and CSS
- Back-end knowledge using Typescript, Python, Java, MYSQL, HTTP requests in Node.js and API integration (REST)
- Proficiency in code versioning using GIT on the platforms GitHub and Bitbucket
- Proficiency in English
- Soft skills such as: communication, work ethics, teamwork, critical thinking and proactivity.

## Education

**(2015-2017)**

**COOPLEM**

*English graduation*

**(2021-2022)**

**TRYBE**

*Full Stack Web Development: The program has more than 1,500 hours of classes and covers introduction to software development, front-end, back-end, computer science, software engineering, agile methodologies and behavioral skills.*

**(2023-2025)**

**UNICEUB**

*Analisis and Systems Development. 2nd semester.*

## Experience

**(2022-2023)**

**FREELANCER**

*In January 2022 I got involved in my first project as a freelancer which consisted of making a page responsive and since then I have been working on developing pages, the last project being a landing page for a sofa washing company*

**(Currently)**

**INTERNSHIP IN IT TECHNICAL SUPPORT - TCB**

*In January of this year, I began my internship at the Sociedade de Transportes Coletivos de Brasília (TCB), providing technical support to employees, performing tasks such as hardware maintenance, computer formatting, operations on switches and routers, and assisting in the development of the intranet.*
